

MicroLite® Series

AttenuTech®

MicroLitePlus™ Pink Radiation Protective Eyewear

Maximum Protection, Comfort and Function

AttenuTech will donate five percent of MicroLitePlus Pink radiation protective eyewear sales to non-profit organizations dedicated to researching and treating cancers that affect women.

- Ultra-lightweight frame architecture, weighs less than 2 ounces.
- SoftGrip™ nose piece provides more comfortable fit.
- Extended temple bars featuring a contoured arc for a more natural and secure fit.
- Enhanced thermopolymer inserts with soft ridges for greater comfort and less risk of slippage.
- Accessory bonus: protective case, microfiber bag, anti fog lens cleaning solution, adjustable ClickFit retaining cord.

Additional MicroLitePlus Features

- ProLiteHT™ high light transmission leaded lenses for unsurpassed optical clarity.
- Integrated Optibloc™ leaded side shields provide lateral protection against scatter radiation.
- Attenuation: 95% radiation reduction at 125 KVP Direct Beam.
- Pb Equivalent Lens: 0.75 mm (+/- .05) Pb glass.
- Widest range of prescriptions available, with fastest Rx turnaround in the industry
- One year warranty from date of sale.
- In addition to pink, MicroLitePlus eyewear is available in choice of silver, matte black or crimson frames (see www.barrieronline.com)

AttenuTech is the only company that designs and manufactures eyewear specifically for your protection in fluoroscopic environments. **All MicroLite® Series radiation protective eyewear is prescriptionable by design. Our in-house lab will process and ship your single vision or bifocal prescription faster than anyone in the industry.**
